

Pine River Public Library District

Public Bulletin Board Policy

The purpose of the Public Bulletin Board is to provide our community with a space to share information about local events and services. Because space is limited, we have the following policy to designate appropriate use:

1. Materials may be submitted for services, resources, fundraisers, or local events.
2. Limited space generally allows only short-term notices. Items may be prioritized based on timeliness.
3. Some materials may be resized, not posted, or removed due to space limitations.
4. Commercial service information may be posted if space allows. Community events and nonprofit, civic, or educational materials will be given priority.
5. Staff may prohibit or remove postings which do not meet library policy. Items left for posting will not be returned.
6. Any materials that violate the law or are unprotected by the First Amendment will be removed.
7. Materials displayed or distributed in public areas do not necessarily reflect the views or positions of the Library or Board of Trustees.
